

## MegaPulse Capacitor Series B Addendum

### Directions for Use

- 1) Insert the jumper between the Output Select Jack and the appropriate jack for the value of the capacitor being tested as seen in the figure above.
- 2) Attached the output and return leads to the capacitor being tested.
- 3) Turn the Voltage Adjust knob to minimum.
- 4) Press the Charge button.
- 5) Increase the Voltage Adjust knob to the desired test voltage.
- 6) Press the Trigger button.
